Thanks once again to:

- Steve Watt & Nancy Hanna for prechecking, advice, multiple proofreads, running the start, helping with markers, scoring at the finish and other things too numerous to mention.
- Ric Goldman, Karen Cate and Larry Friedrich for prechecking and discussing the gimmicks with me via email.
- Joe & Cheryl Battiatio for prechecking and working the Mosh Pit.
- Don & Joyce Mirassou for working the Mosh Pit, handing out candy, and for being my parents.
- Sandra Powers for moral support, helping with the markers, and being patient as I worked on, babbled about and stressed over the rallye.

And thanks to EVERYONE for coming out to run. I hope all enjoyed, and I particularly hope the many First Timers enjoyed the experience enough to come back again.

Apologies once again for the difficulty in seeing several of the signs - particularly the Wolfman. (He looked real cool Saturday afternoon when I finally got the chance to put him up...)

Protests: (Note that all protests were reviewed by a three person protest committee)

Granted

1. All Cars received full credit for the T/G Markers, as the Wolfman picture was so hard to see.
2. One car took GG and received credit for TT by convincing the protest committee a turn was more "straight as possible" than a U. (For example - a forced turn is straight as possible.)

Denied

1. One car took multiple markers from the Heatherstone series by turning at a parallel sign over the SI. All agreed that the SI prevents the possibility of this.
2. One car thought that becoming the Bride of Frankenstein was a change of identity and not a name change. All agreed that the MBtS paragraph covered this adequately
3. One car believed that "at" in RI 3 could be executed before the "on" for Victory in the MtBS. Unfortunately, that same car had recorded the marker for turning R on Victory for the MbTS, so this was denied by all.

Right Number, Wrong Bird Department - Something noticed while taking down the coursemarkers

The coursemarker which Frankenstein couldn't see just happened to be across from 1313 Bobwhite. Not quite the 1313 Mockingbird Lane that the Munsters lived at, but close...

Boring Statistics Department

Here's the breakdown of which classes caught which gimmicks:

(Adjusted for Impossible Combos, not adjusted for Protests) (Accumulated by hand...)

4 Cars took more than one of the Heatherstone CMs

1 Car took both G & T

1 Car took more than one of L, Y & LL

Surprises - Full credit for Heatherstone, and 'S' being a word to turn for the Mummy were caught by far fewer than I expected.
