ME	3 rd	2	900	Steve Hartwell/TRC	Dean Stanton/TRC	Clayton Castle

A = Award earned

Many thanks to pre-checker Larry Friedrich, registrations worker Eric Anderson, and finish worker Trina Wendt!

And thanks to all who participated in this event!

Protest and critique notes: Full credit for RI 21 was given for answers of either A or C due to ambiguity in how to count opps. The descriptions for RI 22 and RI 35 claimed numbers were switched which we forgot to do, so everyone got full credit here. Two cars got answers B,A,B for RIs 29-31. That's a combination we didn't anticipate but is a reasonable partial-credit answer and would have been awarded points if a protest was submitted. Remember to hand in a protest before the deadline if you think you have a different valid interpretation that the critique shows. We gave +5 for this now to give some credit without affecting any placing.

Hardest gimmicks: Nobody got full credit for the RI 29/30/31 maze. Just one car for full credit for RI 27. Two cars got full credit for the RI 24/Q 9 combination. Two cars got each of RI 11 correct and RI 37 correct.

Please check our website at <https://therallyclub.org> periodically for information on upcoming events.

Thanks again for joining us,
Dave Graubart and Cris Wendt
