

The Redwood Region Proudly Presents Mount Tam Trek A Modified TSD Rally

No math required! You will be given clear instructions to each checkpoint, and the time you should arrive. Drive the assigned route and park. At your assigned time, trigger the GPS checkpoint using your smartphone.

The rally is open to any car, regardless of make or model, and PCA membership is not required. The route includes the Mount Tamalpais State Park and the Point Reyes National Seashore.

All roads are paved and in good condition. Great roads and great vistas, and all checkpoint destinations have restrooms. This is an entry-level event, perfect for people who have never rallied before, or for people who hate math.

When:
