Several car numbers not used due to some members running together after renewing membership

+ Awarded protest of 10 points for correctly stating the combination of CMs R 78 and L 78 should be CM L 78 recorded twice for maximum credit

= Award 10 points of protest due to rallyemaster incorrectly answering a question

Comments Summary:

In reviewing the comments, most everyone enjoyed the event checking the "great fun" box. The biggest issue(s) varied but were mostly about problems with U-turns on narrow roads. Some teams would have enjoyed a checkpoint. A few of the E/ME rallyeists liked the gimmick of recording CM L 78 twice, thereby deleting the remaining portion of its own supps. Two people liked the interleaving of the HIDE gimmick with the Supp parts, while another said it was their least favorite gimmick.

Thanks everyone for attending and special thanks to:

- Eric Anderson and Trina Wolfram for working the registration.
- Our pre-checkers: Dave Graubart, Sean Lip, Dean Stanton and Wei-Hwa Huang.
- A special shout-out to Kit Rodolfa for the GPS Coursemarker facility which has breathed new life into coursemarker rallies.
