Title

Spiderman Grand New Way

Introduction

Welcome to the Spiderman Grand New Way rallye. TAKE YOUR TIME! The time you take and the distance you travel will NOT affect your score. In fact, those who take their time on the rallye usually catch more of the traps and score higher.

Regardless of any directives by this rallye (either expressed or implied) you are ultimately responsible for your driving and related actions during this event. If you do not agree with the conditions set forth above in this paragraph, please Do Not Participate in This Event. Instead, return your rallye set to the registration table for a full refund.

Alas and Alack! Our favorite web crawler has just recently finished really messing things up. The only solution to his dilemma was to have all the past memories erased from the minds of everyone but him. His old ways of doing things relied on support from others, and those ways will no longer work. He needs to start from scratch and come up with NEW and different methods of solving problems. He needs to be recognized as a force for good so his deeds need to be GRAND. By solving the riddles of this rallye, he will find the WAY.

Comply with all directives on the Rallye Start Materials (you will use these tools to once again bring fame to our protagonist) which include the Introduction (this page), Spiders Rule (two pages), Route Instructions (two pages), A Score Sheet (one page). Fill out the top portion (Names, Email) of the Score Sheet. Do not make any undirected marks on the Score Sheet. Once you have received all your Rallye Start Materials, you may begin the rallye by considering that RI 1 has come into effect.

In order to assist our arachnid friend, for each word in the title of this rallye, when you firstly encounter a roadway whose name contains the contig of that word, write the name of the roadway you are on in the corresponding slot on the Score Sheet.

On the good side, the story of spiderman's life seems to have gone in a slightly better direction than the story of one of his somewhat-psychic associates (A madame who also is known in web circles). One of the associates of this associate is known to be in the vicinity of our hero's path. Should you, therefore, encounter Sydney, it would be best if you would avoid the bad luck associated with that story and steer clear (do not travel on) of that roadway.

On the negative side, one of Spiderman's most evil adversaries, Kingpin, is disguised throughout the path. You must help by documenting each instance of his presence. Once only, for each roadway that has a posted roadway name and where that sign contains contig King, write the name of the roadway you are on in the King slot of the Score Sheet.

If you are a First Timer or if you have any First Timers with you, a First Timer workshop will be starting around 12:00 pm near the start location. This workshop will help you to understand what a car rallye is all about and to answer the question 'What have we gotten ourselves into?'. We urge all First Timers to attend the workshop.

The finish location is Jakes of Sunnyvale at 174 E Fremont Ave. The finish will open at 3:15pm. Make sure your Score Sheet is complete and consider making a copy for yourselves. After completing the last Route Instruction, turn into Jakes parking lot and then give your Score Sheet to the Rallye Worker. Any Score Sheets turned in after 4:00 pm will have points deducted. If you have questions for the Rallyemaster along the rallye, I can be reached at (310)986-0219.

Good Luck!!! Enjoy the Rallye!!!

Spiderman Grand New Way / Spiders Rule (Page 1)

The following defined terms are the only applications for the referenced terms. All terms not identified here maintain their standard definitions.

SR 1. Order Of Precedence:

If items of different precedence conflict, obey the item of higher precedence in that situation. A single turn that you make may not satisfy more than one directed turn. For this rallye, comply with items listed in the Order of Precedence as soon and as often as applicable. No item that is not identified by the Order of Precedence may direct your actions for this rallye.

The order of precedence from highest to lowest is:

California Motor Vehicle Code (Always be safe)
Rallyemaster
Spiders Rule (SRs)
Introduction
Web Supplement(s)
NOTEs
Route Instructions (R.I.s)
Order Presented (first to last then top to bottom then left to right).

SR 2. Definitions:

Parenthesis (): DO NOT look for traps here. Information in Parenthesis provides helpful or frivolous information ONLY. Traps, even if they exist, will NOT be scored during a 'Break Period'.

ASAP:	As soon as possible.
Contig:	All letters of the target word in sequence on a roadway naming sign.
CSPD:	Continue in the Straightest Possible Direction.
FT:	An intersection where you can T (Forced Turn).
Int:	A meeting of two differently named roadways.
Intersection:	A meeting of roadways
L:	Turn left.
R:	Turn right.
RDWY:	A differently named roadway than the roadway you are on.
T:	Turn at an RDWY in the only direction possible.
Tee:	An intersection where a roadway extends to your right and a roadway extends to your left, and past which you cannot continue straight ahead on the roadway you are on.
Turn:	R or L (within approx. 75 to 105 degrees).
Word:	Any sequence of only letters bounded by delimiters.
You:	The person listed on the Score Sheet as the driver.
" ":	(Double Quotes) A sign containing one or more of the enclosed words.
' ':	(Single Quotes) Text (includes numbers) as shown within.

SR 3. Notes:

Comply with each NOTE as soon and as often as possible, but only when it is in effect. Each Note goes out of effect when deleted. Each Note comes into effect as soon as you complete the highest-numbered R.I. that appears before it.

SR 4. @:

If a turn is listed in an R.I. that contains an @, that turn is to be done at or as soon as possible after the indicated location.

SR 5. Route Instructions:

Each R.I. comes into effect once only, after the immediately preceding R.I. goes out of effect. Each R.I. that is in effect, goes out of effect when you have performed all parts of that R.I. or when you can perform part of the next R.I. Commas in an R.I. separate the parts of an R.I.

Spiderman Grand New Way / Spiders Rule (Page 2)

SR 6. Questions

A Q is a printed question on your course pages. A Q is applicable and comes into effect after you have performed a directed turn on a named roadway while the highest numbered R.I. that appears before the Q is in effect. Once in effect, the Q goes out of effect once that Q is afterward completely answered or when you turn for the R.I. that appears most immediately following that Q. Print the answer to each Q, or print 'Empty Web' if you can't answer the Q in effect by the time it goes out of effect, in the space on the Score Sheet that corresponds to the number associated with that Q.

SR 7. Tee:

If you come to a Tee where you cannot make an otherwise directed turn, R.

SR 8. Signs & Landmarks:

Use only signs that are public or private roadway naming, government, rallye, or landmark. Do not look upon any portion of a sign not at least partially facing you. Never look more than 90 degrees from your direction of travel nor more than 75 feet from your position upon the rallye course. Consider separate signs on the same post to be the same sign (this does not change the assigned roadway name). Consider numbers and graphics to be nonexistent on signs.

Consider the following words and their abbreviations to be nonexistent on signs: Avenue, Boulevard, Court, Drive, Lane, Place, Road, Street, Way, North, South, East, West. Consider 'Selo' to be nonexistent on signs. Disregard any signs with 20 or more words on them.

SR 9. Roadways:

Roadways are valid if they are named, paved, and public (not marked 'Private'). Consider driveways, parking lots, and words on pavement to be nonexistent except at the start and finish locations of the rallye. Consider yourself remaining on a named roadway until a roadway naming sign tells you differently.

SR 10. Spiderweb:

If the R.I. currently in effect contains the word 'Spiderweb' and the name of the roadway you are on, (you are stuck) you remain Spiderwebbed on that roadway until you have made a U-turn while on that roadway. This means that you must either CSPD or T at that roadway so you will then continue to be on that roadway. If you perform a U-Turn on a roadway on which you are spiderwebbed, write the number of the R.I. you are currently performing in the Spiderweb slot on the Score Sheet.

SR 11. Or:

The word OR separates an R.I. into its included parts. If the R.I. contains the word OR, merely perform only that part of the R.I. that can be done first. If both parts are simultaneously applicable, do only the first part.

SR 12. Checkpoint:

You should stop each time you come to a checkpoint and then you should turn in your Score Sheet (with all applicable answers filled in) to the Checkpoint Worker. Unless otherwise directed, comply with any directions given to you by Checkpoint Workers.

SR 13. The Other Stuff:

To be AT something or to ENCOUNTER something is to be within 75 feet of it; however, you can't be AT something or ENCOUNTER something that is only behind you. CaPiTaLiZaTiOn and *typefaces* are irrelevant. Numbers and symbols are not words. Other than for Contig, do not split any word, number, or defined term. Abbreviations are not words.
